

ENGEL MRFD-015

This Engel model is an ideal, compact and portable freezing unit capable of freezing almost anything.

This unit can be taken anywhere over your shoulder! - all you need is 12 Volt power. With a [converter](#) it can also run off household 110 Volt supply. As a refrigerator it can hold a steady interior temperature.

They are great for people on the move - all you need is a 12 Volt power supply - from your vehicles battery. It simply plugs into the accessory socket.

Technical specifications:

Commonly used by:

- ▶ **Boaters** - for making ice cubes
- ▶ **Campers** - keep food frozen or beers chilled
- ▶ **Reps on the road** - for frozen product samples
- ▶ **EMS, Ambulance and Fire Rescue teams** - drug storage & therapeutic cooling therapy. We also offer a optional locking hasp.
- ▶ **Health Nurses** - maintain the cold chain
- ▶ **Biologists** - for blast freezing test samples in the field
- ▶ **Personal medication** - keep refrigerated or freeze ice packs

We offer an optional Converter/ Power Supply - so that you can run the Engel 15 off mains electricity (120V).
