

**ENGEL****MT60 Combi**

Click on images to enlarge

The Engel MT60-Combi is a large and powerful dual voltage combination fridge and freezer, with two separate compartments - one freezer and one refrigerator. The fridge compartment is fixed at 40°F and the freezer compartment features variable temperature regulation from 40° down to below 0°F.

It is a great product where size and volume matters.

Commonly used by:

- ▶ **Boaters** - for making ice cubes
- ▶ **Campers** - keep food frozen and beers chilled
- ▶ **Truckers** - this all-in-one is all you need
- ▶ **Medical transport**
- ▶ **Cabins** - great in remote 'off the grid' areas
- ▶ **Home** - ideal for areas of intermittent power supplies

### Technical specifications:

Model Number	MT60F-U1-C
