Isotherm CRUISE 195 Combi Classic (separate fridge & freezer)

The Isotherm Cruise 195 COMBI Classic Marine Refrigerator / Freezer is an upright combo unit that features the refrigerator on top and a deep freezer on the bottom. Each section features its own separate compressor and thermostat control for superior reliability and performance in an upright fridge / freezer.

The Cruise 195 refrigerator section is on top for convenience and features molded-in cradles and door shelves for rugged durability and plenty of room for food and beverages. The top refrigerator section has an innovative cooling evaporator protected by an aluminum shield with built-in air circulation fan that pulls cold air across the evaporator and circulates the air in a convection to keep temperatures the same on top and bottom shelves. A condensation tray positioned under the evaporator captures condensate and channels it out the back, into an evaporation tray. This helps keep the Cruise 195 refrigerator section free of frost issues.

Your Advantages:

- Volume: 195 liters (fridge: 130 liters, freezer: 65 liters)
- Mounting frames for an easy and neat installation
- Two door fridge-freezer solution
- Interior light
- Silent, high efficient, fan cooled 12/24V Danfoss / Secop compressor
