- Superbright 360° Light Visible up to 2NM (3704 m) in darkness
- Multi Mode: Red, Green and White- White-Red and Green
- High Burn time:  
24 hrs all light on  
60 hrs White lights only  
38 hrs Red and Green light only
- Light Weight: only 130g (155g with magnet bracket included)
- Simple push button on/off
- Attach to almost anything with its amazing double magnetic system
- Floats in water with light facing up
- Rugged, durable and impact resistant
- Ultra compact; small enough to fit inside a pocket.
- Runs on standard 3 x AAA batteries

### **Why it is so important:**

- Increase in number of boats and kayaks
- Larger and faster boats than ever before
- Many small boats, dinghies, and kayaks without lantern after dark
- There are no marine speed limits after dark ...
